Prices Shattered

Torn in two is bett r. No reason for it, but such is the case. A \$10 bill buys a better Suit at our store today than \$15 did formerly. So it is with other articles of wearing apparel for men. Our 85c Shirt for instance is worth a dollar of any man's money. We are satisfied with small profits. That's why we succeed, come in tomorrow and look at our \$10 Suits; look also at the 85c Shirt. You may not want to buy now but later on you will, and we want to impress you with our values in advance.

Next Saturday we'll show the new spring shape in Dunlap Hats.

We will Sell Choice of 900 Pairs of LADIES' BUTTON AND LACE SHOES,

WORTH \$2.50, \$3, \$3.50 AND \$4, AT

FOR CASH ONLY.

comet to a hazy body and it is difficult RIOT IN A CHAPEL to get good observations. If it was a point like a star it could be told with mathematical certainty just where it would be at a certain minute or hour, but being a huny thing it is difficult to see where is the head, the greatest

the Services-Freshmen Arose and Begon Pelting.

Chicago, Feb. 22.—A dispatch from Crawfordsville, Ind., says.
The celebrallism of Washington's birthday at Washat college began by a riot in the chaiel. The cophomores released a flock of pigeons avaring their colors during in a carried their colors during the exercises and began pelting the birds with hymn-books, clubs and hats. Inth classes were yelling and scrambling over seats, while President Burroughs in vain called for order. The students roused to listen to his commands. The students finally surged into the halls and began a class fight.

President Burroughs rushed in, but was pushed aside and his entreaties drowned by the filarious yells of the students. The other members of the faculty were treated likewise and all except President flurroughs sown retired. He stayed sind endeavored to address the students and one and time, but the students and no account inceptual to the students and no account of him. No recitations were had during the day.

It is said that wholessie expulsion will follow the chapel scene. So far the students have not gone to President flurroughs to said for pardon, and the custos against those most interested will nowbothly not be called before Monday. A private session of the heads of the college was hald during the day. What was decided upon, if anything, is not known.

would be at a certain minute or hour, but being a hazy thing it is difficult to sees where is the head, the greatest point of condensation and to tell exactly what the comet is doing. You remember in 1892 it was thought for some days that a comet was going to hit us, and then it was discovered that the comet was going away from us instead of coming toward us.

"A comet is not a solid wedy like the earth. It is made up of minute bodies. We might compare it with a dust cloud. While in size it is as large as the earth, there is no comparison in the solidity of the two. Sofar as we have been also to beam, there are no large particles of matter in a comet. They are made up of atoms of dust. Iron, nickel or some other metal. Our atmosphere is practically imprevious to such a body. Because the authorises of dust, from, nickel or some other metal. Our atmosphere is practically imprevious to such a body. Because the authorises of the authorises with which a counct travels. The particles would become infinitely fine, no larger than the diffinate atom of matter. They would ultimately reach the earth. While in buils and space the comet may occupy the room of the sarth. It is not racked solid like in particles would become infinitely fine, no larger than the diffinate atom of matter. They would ultimately reach the earth. While in buils and space the comet may occupy the room of the sarth. It is not racked solid like in earth. It is not racked solid like in earth. It is not racked solid like in earth. While in buils and space the comet may county the room of the sarth might not contain more far enough matter to make the carth might not contain more can enough matter to make the carth might not contain more can enough the active of some that the armound of the sufficient to the make-up of a comet. There is fast one possibility of a contain with the armound of the contact with the armound of the contact with the armound of the contact with the armound of

in an interciew is quoted as eaglist.
"I have the strongest opinion in favor of the acceptance of the scheme,
it is a great mistake to waste time in
distance to barging. The details are
distanced in the superior with the
superms importance of an immediate
arrangement of a settlement of international difficulty."
The Westminster Gasette this afterToe Westminster Gasette this after-

factive."
The Rt. James Gazette, commenting upon the proposed erbitration makes some remners concerning George Washington, saying:
He became the adversary of England relicitantly and was never her carry. If the became the first animated the tenants of the White House trains it is certain that the tenants of the White House trains it.

"He became the adversary of England religionally and was never her enemy. If his epith animated the tennis of the White House isday it is certain that the trumpary dispute between us and a South American republic would not be made the occasion of a difficulty which almost threatweel was between the two peoples."

The weekly newspapers are less favorable to the proposal. The National Observer warns its readers annied to republic the proposal of the proposal of the American Covered to the proposal. The National Observer warns its readers against a two repute of the proposal of the American we give up the wide that the United States on the consensual of the White the Child States and in the Commission has to report on the abound chain of Vancaucia we have especial the demands of the United States and its treport on the abound the case. This would probably lead to other concerns.

In Jancaon and his officers are expected to arrive at Phymouth on Monday, Grant preparations are being made to prevent a Chauvanist demonstration and the numerical decore will be secretly removed from the steamer, possibly before size is docked.

It is announced that the queen has sent a message to President Krueger in her own terms, expressing sympathy with the suffers at Vicendory-Phile dynamic experiment at President Krueger will come to England.

A disputch from Capetown published today has created a bad impression, it says it is reported that the Roser intend to proclaim their independence of Great Histain on February 27, the fifteenth anniversary of their will come to England.
